

Assessment Evidence for determining teacher assessed grades in Summer 2021

Assessment Evidence Form

The Assessment Evidence Form should include the sources of the assessment evidence being used and the rationale for the choice of evidence, the level of control under which assessments were completed (i.e. exam-type conditions would provide a high degree of control), and any other evidence that explains the determination of the final teacher assessed grades.

High control	Another teacher moderated 15% sample

Outline the rationale for the choice of assessment used, i.e. why the evidence above was used and how it supported the grading decision:

A substantial part of the content for evidence points 1 and 2 were covered via face-to-face teaching.

These assessments have been chosen as they are believed to be the fairest representation of the student's performance across the subject.

These assessments provide a broad range of assessment opportunities and adequately cover the assessment objectives of the specification.

These assessments will assess students on taught content from the specification.

All evidence has been completed using past exam questions and marked using official mark schemes provided by the exam board.
