

## Get Ahead in Electrical Services

Welcome to our Get Ahead programme for new Engineering Technology 'fresher' students. We have carefully selected some virtual work experience programmes to prepare and support you with your next step into further education and to give you a better understanding of your chosen career. We hope you enjoy getting involved!

### Q. How do I get started?

A. Simply, log into any of the virtual work experience (VWEX) programmes via the links below and complete all of the course set questions. After completing your VWEX, take a screen shot as proof or you can download an electronic certificate (there is a fee to do this). Keep hold of the screenshots so you can show them to use when you enrol as students that complete all the virtual work experience tasks set will be entered into a prize draw.

### Q. Can I study more than one area?

A. 100%, if you want to study health and safety, electrical and plumbing – the more the better in getting ahead and it looks good to employers and great on your CV!

### Q. What if I don't complete the VWEX?

A. Don't worry, the programme has been selected to support your next transition. We ask a member of staff to help you complete the activity

### Q. Is it mandatory that I complete this VWEX programme?

A. It's not mandatory, but we do advise giving the courses a go as it will help you prepare for the course and should help to make the first few weeks a bit easier!

## Electrical - Level 2 and Level 3

- Introduction To The Electrical Trade  
<https://alison.com/topic/learn/70319/the-electrical-trade-learning-outcomes>
- Introduction To Basic Electrical Drawings And Test Equipment  
<https://alison.com/topic/learn/70365/basic-electrical-drawings-learning-outcomes>
- Introduction To Electrical Wiring Systems
